SAN FRANCISCO ITEMS.

The January term of the Supreme Court will begin on the 16th of next month.

The pound has been reopened and the campaign against untagged dogs is active.

Quarantine fees on 104 vessels arriving in this port the last month amounted to $590.

The Liberal League is trying to see that the churches of the city be taxed as high as other property.

Into the City and County Hospital during the last four weeks 307 patients were admitted; 493 are now inmates.

During the week ending December 23d there were 105 deaths—male 68, female 37. Nine of them were by violence.

Major Whittle, the Eastern revivalist, and J. H. McGranahan, "the silver voiced," will arrive in this city on New Year's Day.

Up to last Tuesday morning the rain-fall in San Francisco for the season amounted to 6 40 inches. Last year at that date it was 12.14.

The two hundred and sixty-first anniversary of the landing of the Pilgrims at Plymouth Rock was celebrated last week at the first Congregational Church.

A movement is on foot to start a co-operative coal society. Its object is to emancipate the people from the grinding exactions of the coal monopoly of this city.

The intelligence that the crew of the Jeannette had at last been heard from, after escaping, as it were, through the very jaws of death, was received with special interest in San Francisco.

The Board of Health have sent the Supervisors a communication requesting more prison accommodation, and also co-operation with them in the condemnation of Chinatown as a public nuisance.

The Land League for Ireland has a letter from T. P. O'Connor, M. P., that he will be in San Francisco some time in January. This branch League is sending large sums to Ireland to aid the cause there.

Many persons are signing a petition to the Governor and Prison Directors to restrict the employment of convicts to stone-quarrying, road-making, etc., and such other occupations as will not injure the mechanics of this State.

Eight thousand packages passed through the Postoffice in this city during ten days before Christmas, some 25 per cent more than during the corresponding period last year. Forces of clerks are employed day and night in the Registry Department.

The Chinese steamer which last arrived brought 396 passengers. One hundred of them go to Honolulu, and 196 others go to work on the Southern Pacific Railroad in Texas. On the same day the Oceanic which sailed for Hongkong took away 630 Chinese.

Adolph Sutro, who recently purchased the Cliff House property, has about 100 men engaged making repairs and improvements on an extensive scale. It is the intention of Mr. Sutro to expend a large sum in making the Cliff one of the most beautiful spots in the world.

During the year 1881 there has been granted in this city 364 divorces. Of this number, 118 were on the ground of wilful desertion, 92 on the ground of extreme cruelty, 51 on the ground of failure to provide, 20 on the ground of wilful neglect, 28 on the ground of habitual intemperance, and 32 on the ground of adultery.

The amount so far collected toward the Veterans' Home Fund has already reached about $30,000, and it is confidently expected that during the next three months the sum of $60,000, the minimum amount required, will have been collected. A thorough canvass will be commenced through the city shortly after the holidays.

A woman very much weakened by liquor, entered the Health Office the other day to apply for admission to the Almshouse. While waiting she saw a 12-ounce vial of sulphuric acid, and supposing it to be gin, swallowed half of it. The effect of the acid was instantaneous, and she fell to the floor writhing. She was taken to the Hospital where she died shortly.

The Trades Assembly is taking vigorous action against Chinese immigration. They have recently sent 6,000 copies of their paper of statistics to the Trades Unions and papers of the East, and 500 to members of Congress with letters urging radical legislation. A bill, more prohibitory than any yet introduced in Congress, is to be prepared and forwarded to some Congressman for presentation.

The holidays thus far are more lively than ordinary. Before Christmas the markets were full of turkeys and purchases, the display of the shops exceedingly gay; the streets thronged with patrons of Santa Claus, and the tens of thousands of givers and expectants of holiday presents were joyous and happy. There seem to be no hard times in San Francisco.

James C. Flood has made the following generous Christmas gifts to charitable institutions: Protestant Orphan Asylum, $1,000; Catholic Orphan Asylum, $1,000; Hebrew Orphan Asylum, $1,000; Ladies' Protection and Relief Society, $1,000; San Rafael Orphan Boys, $1,000; Magdalen Asylum, $500; San Francisco Benevolent Association, $250; Boys' and Girls' Aid Society, $250. Total, $6,000.

For Drunkenness on Christmas (last Sunday) the police arrested 168 persons. Sixty-nine of these were released from custody on a deposit of bail in the sum of $5 each. The ninety-nine others were brought before Judge Rosenbaum the next day, who, after giving them a lecture on the sin of drunkenness, discharged them from custody. On the Monday following about half as many drunkards were arrested.

The State Teachers' Association is holding its fifteenth annual session this week. The special and prepared addresses are by President Denman on "Graded Schools," Superintendent Campbell, Rev. Dr. Cole on "The Battle of Letters," County Superintendent Jesse Wood, President Reid of the University, Prof. Allen on the "Necessity of Trained Teachers," Prof. McQuinn on "Mechanical Pedagogy," and Dr. J. H. Wythe on "Symmetrical Education."

A meeting of representatives from the several branches of the Irish National Land League in San Francisco and of other local Irish organizations, was held last Sunday at Irish-American Hall, for the purpose of making arrangements for the reception of Messrs. T. P. O'Connor, the member of Parliament from Galway, and Timothy M. Healy, member from Wexford, who are expected to arrive in San Francisco on the 17th of January. A great demonstration is intended.

The corner stone of a new Italian church was laid last Sunday. A large concourse of people assembled. Father Valentini acted as master of ceremonies, Archbishop Alemany, the clergy generally, Mayor Blake, Judges Evans and Wilson, and leading Italian citizens participating and assisting. The Archbishop delivered an address. Governor Perkins sent a dispatch to the Committee of Arrangements, regretting his inability to attend and participate in the ceremonies.

NEWS SUMMARY.

Congress has given Mrs. Garfield the franking privilege.

Parnell has been removed from Kilmainham jail to Armagh.

To relieve the sufferers by the Michigan fire $300,000 more will be required.

The report that Mrs. Abraham Lincoln had lost her eye-sight is incorrect.

The Coinage Committee of Congress is opposed to the restriction of silver coinage.

Senator Miller, of California, has been very sick with malarial fever, but is recovering.

The sentiment in favor of a revision of the tariff is growing in Congress, and legislation on that subject is expected.

The weather at Chicago and all over that part of the country so far this month has been the mildest on record.

T. P. O'Connor, M. P., is on his way to the Pacific Coast where he is expected to give addresses on the Irish question.

The delayed steamship Westphalia, which arrived at New York a few days ago from Europe, brought numerous cases of small-pox.

Scarlet fever is increasing in New York City at a threatening rate. For the week ended Saturday last there were probably 81 deaths.

In Dublin the police recently seized several casks of gunpowder, 1,500 pistols, and two cases of revolvers that had arrived at the railway depot.

In Chicago, the other day, a man to whom a dentist had given chloroform when about to extract a tooth, died while in the dentist's chair.

Small-pox continues to increase in Chicago. The people complain that it is owing partly to the fact that persons having the disease in country towns are sent to the city.

Some one who says he has talked with the President about the matter, is certain that ex-Senator Sargent, of California, will be appointed Secretary of the Interior, and William E. Chandler, of New Hampshire, Secretary of the Navy.

Owing to the prevalence of small-pox at Mount Carmel, Ill., the Mayor ordered the churches to be closed. One church disobeyed and held a festival. Then the authorities ordered every person who attended the festival to be vaccinated.

The trial of Guiteau has been continued another week with little progress. The examination of witnesses and the hearing of the assassin's talk, consumed the week. The opinions of what will be the ultimate result of the trial are very different.

In New York the recent marriage of the youngest daughter of Wm. H. Vanderbilt to Dr. William Seward Webb, made quite a stir among the fashionable and social circles. Madame Rumor had it that among the bridal presents from the father was a check for $250,000.

The Irish fund for political prisoners now amounts to £9,000. The Privy Council have determined to proclaim Dublin anew, making it illegal to possess arms without a license. The Catholic priests are circulating in Ireland copies of Bishop Nulty's letter to the priests of his diocese (Meath), stating that land is the common property of all.

Before the adjournment for holidays the Senate confirmed the following nominations: Wm. Henry Trescott as Envoy Extraordinary to Chile, Peru and Bolivia; ex-Senator Howe as Postmaster-General, and Judge Gray as Associate Justice of the Supreme Court; also Thomas C. Acton as United States Assistant Treasurer of New York City.

A bill has been introduced in Congress for the better protection of the Presidents of the United States from assassins. It provides that an attempt on the life of a President of the United States shall be punishable, on conviction, by death; and that if the accused shall prove insanity, he shall be confined in a lunatic asylum for life.

Congress adjourned for the holidays until January 5th. Before adjournment the Committees of the House were announced by Speaker Keifer. Of the California members, Page is Chairman of the Committee on Commerce, and Pacheco of the Committee on Public Land Claims. Washington dispatches say that there is widespread dissatisfaction with the manner in which Speaker Keifer has made up the House Committees.

The New York *Tribune* now takes the other side of the Irish Land Question and says: The outrages perpetrated by members of the Irish Land League upon honest tenants who pay their rent, described in our London letter, recall the crimes of the Molly Maguire organization when that barbarous society terrorized the mining regions of Pennsylvania. What contributor to the Land League fund desires that his money should be used to buy guns to shoot his own countrymen for no other offence than paying rent which they agreed to pay?

The Jeannette.—It is now tolerably certain that the Jeannette is lost but that many if not all of thirty-three persons on board are safe. The intelligence is received through St. Petersburgh that two boatload's of her crew had reached the mouth of the Lena river, in Siberia and that the vessel was crushed in the ice in latitude 77 deg., longitude 157 deg. From the position in which the Jeannette is reported to have been crushed, it is probable that she was carried westward by the currents of the Arctic, and that her attempts to reach a high northern latitude were as fruitless as those of other vessels on the same mission. The telegram to the Secretary of the State from the Charge d'Affairs at St. Petersburg states that the crew, after the closing in of the ice, embarked on three boats. These were separated by wind and fog. One of them reached the mouth of the Lena on the 19th of September. This boat was commanded by Chief Engineer Melville, and contained eleven men. Subsequently a second boat, containing Captain De Long and Dr. Ambler and ten men, arrived at the Lena in a pitiful condition. The third boat has not been heard from. Assistance was promptly sent to De Long and his companions in Sibera, and their return to their homes in the United States may be expected at a not very remote day.

The New York *Herald* has received a later dispatch from Engineer Melville, giving fuller details about the boats, and making a strong appeal for assistance. He said that the party under Captain De Long was in danger of starvation. The Czar has instructed the Governor of Eastern Siberia to use every means in his power to assist the ship-wrecked crew. The Secretary of State has telegraphed to Hoffman, Charge d'Affaires at St. Petersburg, to draw on the Government for all the money needed to relieve the survivors. The *Herald* has information that its special correspondent, Jerome J. Collins, is safe.

SAN FRANCISCO MARKET.

FLOUR—Nearly 20,000 barrels were forwarded this week to Great Britain, including one invoice of 10,000 and another of 1,000 to Liverpool, also 8,250 to Dublin. Other exports were, in barrels: To Hongkong and China 7,550, Japan 279, Hawaiian Islands 729. While the market cannot be called firm, it shows less symptoms of weakness than at any time during the past fortnight. Dealers are well stocked.

We quote, Superfine common, $3.50@3.75; Superfine, $3.75@4.00; extra superfine $4.25@4.50; choice and extra choice $5.00@5.25; Oregon, good to choice and country grades, extras, $4.50@4.75.

WHEAT—At this date last year the situation as compared with to-day was as follows.

	1880.	1881.
Liv. quotations,	9s 8d@10s 0d.	10s 5d@10s 10d.
Freight rates,	65@70s	70@75s.
Local market,	$1.42½@1.47½	$1.55@1.60

The prices above are for spot lots of average California in Liverpool, and for good to choice shipping in this city.

After several weeks of extreme dullness and steadily declining prices, it is gratifying to chronicle a change, slight though it be, for the better. Shippers have been lately carrying stock as light as possible, in anticipation of a weaker market than we have yet had. But developments within the past few days warrant the impression that bedrock has been reached. Speculators consider it an opportune time to step in and take hold, and their attempt in this direction had a decided tendency to harden values. Exporters in this market who were in need of wheat became anxious and freely bid extreme figures, while sellers were more disposed to wait until it was more fully demonstrated whether the upward tendency would prove merely a temporary spurt or the beginning of a substantial reaction.

We quote Superfine, $1.47½@1.52½; fair to choice milling, $1.55@1.62½; shipping $1.55@1.60.

FREIGHTS AND CHARTERS—Latest spot charters are at stiff rates. For a small and very desirable iron vessel to Cork, U. K., 77½s was paid, and for a wooden ship above the medium size, 70s to Liverpool direct. Ten vessels have been taken from the disengaged list during the week, and the lowest figure paid was 65s for two large American ships to Liverpool.

	Engaged.	Disengaged	To Arrive.
1881.	83,661	14,478	279,036
1880.	64,273	27,606	184,269

OATS—There is a fair inquiry, but business is checked by high asking prices. Receipts are light, which is accepted by interested parties as proof that supplies on the outside are well reduced. Stocks here are in the main concentrated in a few hands.

We quote milling at $1 80@1 85; choice feed, $1 75@1 80; fair to good feed $1,70@1 75; common feed $1 65@1 70.

BARLEY—The demand is good for feed, brewing and seed purposes. There is no feed obtainable for less than $1.47½ that is at all desirable, and for choice $1.55 is asked by some holders. The market is not burdened with offerings. Standard chevalier is the only quality on which prices are easy, owing to lack of demand for this particular kind.

We quote feed, $1.47½@1.52½; Brewing, $1.55@1.62½; Chevalier, $1.52½@1.57½ for fair to choice bay; for Coast, $1.45@1.50.

WOOL—Both on Eastern and local account there is some business doing, including some transfers of every variety. The market, however, is not active, nor are stocks reduced to the point they should be at this time of year. In addition to a liberal supply in warehouse here, there is a large amount still in the interior. Prices are steady.

Southern fall, and lambs, 10@13; Calaveras and foothill, 14@17; Choice Sonoma, Humboldt and Mendocino, 20@21c; Northern Fall free, 18@20c; Northern Fall, seedy or burry 14@17c; Valley Oregon, 27½@30.

BUTTER—Fresh roll butter of good to choice quality has not been allowed to accumulate in jobbing houses lately. More than has arrived could have been placed without disturbing values. Market is well supplied with pickled and solid packed, the former selling at 30@32½c., and the latter at 25@30c.

CHEESE—An active demand and light supplies are enabling dealers to obtain top prices.

EGGS—Trade has been fairly active the past week, and prices have favored sellers. The only receipts from outside sources were some Western lime eggs, and these had little or no effect on the market for choice fresh. Numerous orders are at present coming from Nevada.

We quote California fresh roll butter, 37½@40c; common to good roll, 35@37½c; Cheese California, 15@16c; California Eggs, [illegible]@40c.

POTATOES AND ONIONS.—Heavy receipts of Irish potatoes and an accumulation of stock from previous consignments, have operated against sellers. Lower quotations are noted on most varieties. Sweet potatoes are commanding good figures. Recent sales of select in boxes at $2.75@2.80. Onions are in excessive supply, and the market is decidedly weak.

We quote Early Rose $1.12½@1.25 River Red, 90c@$1.10; Garnet Chile, $1.10@1.15; Cuffey's Cove, —@— Petaluma and Tomales, $1.20@1.30; Humboldt Red, $1.25@$1.35; sweet potatoes, sacks $1.75@2.25; onions yellow, 40@65c.

POULTRY—Attention in this market has been mainly directed to dressed turkeys this week. Receipts were very heavy, but little if any in excess of the demand. Live turkeys came in for secondary consideration. Other poultry was not in active request.

Turkeys dressed, 13@17; Turkeys alive Hens, 11@13; Turkeys alive, Gobblers, 12@14; Hens per dozen, $5.00@6.50; Roosters, old, $4.00@5.00; Roosters, young, $4.50@5.50; Broilers, $3.50@4.00; Ducks, small and large, $5.50@7.00; Geese, per pair, $1.50@2.00.

PROVISIONS—Inquiry is light. Buyers do not find it difficult to obtain concessions on large orders.

Hams, C. S. C., choice to fancy 16@16½; Hams, C. S. C., fair to good 15@15½; Hams, uncanvassed, California, 12@12½; Hams, Cal., canvassed, 14@16; Bacon, Eastern, light, C. S. C., 14½@15½; Bacon, Eastern heavy, —@—; Bacon, Cal., medium, uncanvassed, 12½@13; Bacon, Cal., light, uncanvassed, 13½@14; Lard, Cal., 5 to 10-lb. tins, 13@13½c; Lard, California, in tierces, 13½@14; Lard Eastern, refined, 3 to 10 lbs, 14½@16½c.

HONEY.—Market firm for extra white and easy for poor qualities. Comb ranges in price from 12½@20c., and extracted from 8@10.

It is predicted that the present session of Congress will be extremely long and interesting. A bill restricting silver coinage will be introduced, and will somewhat divide the Republicans.

An Awful Responsibility.

Everybody has something to say about consumption. We all deplore its terrible ravages, but only few of us seem to have common sense enough to take the proper means of preventing it. It is a fact as easy of proof as that two and two are four, that Hale's Honey of Horehound and Tar, taken as a remedy for *coughs, colds, difficult breathing, hoarseness*, or any other of the symptoms which, as it were, pave the way for that terrible destroyer, will effect a radical and rapid cure of the ailment, and avert all danger. Whoever, knowing this, neglects to resort to the *true specific* under such circumstances, assumes a fearful responsibility. Sold by druggists.

(Remember the name, Colden's—*take no other*.) Of druggists generally.

To Consumptives.

"Golden Medical Discovery" is a concentrated, potent alterative, or blood-cleansing remedy, that wins golden opinions from all who use it for any humor, from the common pimple, blotch, or eruption to the formidable scrofulous swelling, or ulcer. Internal fever, soreness and ulceration, yield to its benign influences. Consumption, which is but a scrofulous affection of the lungs, may, in its early stages, be cured by a free use of this God-given remedy. See article on consumption and its treatment in Part III. of the World's Dispensary Dime Series of pamphlets, costs two stamps, postpaid. Address World's Dispensary Medical Association, Buffalo, New York.

A Handsome Volume.

The last volume of Demorest's Monthly Magazine, published at 17 E 14th Street, New York, has been bound in book form. It is certainly worthy of preserving in this shape. Fine chromos and beautiful engravings are an interesting feature of this monthly publication. The following opinion from England is significant:

"Demorest's Magazine, a literary conservator of the artistic and the useful. Got up in America, where it has enormous sales, the most remarkable work of the class that has ever been published, and combines the attractions of several English Magazines.—[London Times.

An oil well at Warren, Penn., that has been quiet for years, has begun to flow 400 barrels a day. There is a lively return of the fever around there.

Liquid or Dry.

Some people prefer to purchase medicines in the dry state so that they can see for themselves that they are purely vegetable. Others have not the time or desire to prepare the medicine, and wish it already to use. To accommodate each class the proprietors of Kidney-Wort now offer that well-known remedy in both Liquid and Dry forms. Sold by druggists everywhere.—[Truth.

It is the province of ministers to do good, therefore we think every minister should inform himself in regard to Ammen's Cough Syrup, and after being satisfied that it is all that is claimed for it, recommend it; thus lives can be saved, and then taught how to save their souls.
