NEW YORK EXHIBIT DENOUNCED HERE

Supported by No California Institution.

A LETTER EXPLAINING IT.

MANAGER OF THE NEW YORK EXHIBIT. SAN FRANCISCO. In Connection With the State Board of Trade and California's Fair Investigation.

The exhibit of California products at the Madison square Garden, New York, last night, which has been widely advertised as an enterprise of the State Board of Trade, is a mere commercial scheme, conceived by people having no authority from the board. The board has no authority to make any such exhibition, and all have been informed that the New York enterprise had no connection with the State Board of Trade or any other official body of California.

A letter was received by Secretary A. Fisher of the board yesterday. It was written by J. A. Mahoney, of the State Board of Trade, New York. It was intended to aid in the project of exhibiting the products of California at the Madison square Garden, New York, last night. The letter stated that the State Board of Trade had authorized the exhibition, and that the board had received a large amount of money for the purpose.

SOUTHERN PACIFIC ANNUAL REPORT.

It is Filed With the Railroad Commissioners.

EXPLANATION OF THE DELAY.

CAIRED BY THE ILLNESS OF AN OFFICIAL. The figures show a deficit of nearly a million for the Pacific system.

The Board of State Railroad Commissioners has about 200 applications for railroad maps of the State on file. There has been an official refusal of the board to issue any more maps, and the board has therefore undertaken the compilation and publication of a map which will show all the railroads in the State. The map is now being prepared, and it is not known when it will be ready, but it is not expected that it will be ready before the next year.

The Southern Pacific Company has just filed its annual report with the State Railroad Commissioners. The report shows that the company has a deficit of nearly a million dollars for the year. The deficit is caused by a number of factors, including a decrease in freight rates and an increase in operating expenses. The company has also reported that it has received a large amount of money from the State for the purpose of building new railroads.
