The Telegraphers' Strike

It Interferes With Messenger Service All Over the Country. A Plan To Alleviate It

The strike of the telegraphers, which has extended to the bonded press, has seriously interfered with the service of the Mail, but this paper will do its best from day to day to present the news with the latest possible account of the world's happenings.

It is to be noted that the telegraphers' strike has extended to the bonded press, which has seriously interfered with the service of the Mail, but this paper will do its best from day to day to present the news with the latest possible account of the world's happenings.

SEAL ROCKS DISAPPEAR IN PACIFIC OCEAN.

Terror-Stricken Guests of Cliff House Flew in Nightclothes—Continental Developments.

Special telegrams to the Mail from San Francisco, August 12, when the seal rocks were reported to have disappeared from the Pacific Ocean.

The Associated Press telegraphers, however, were to have been notified through the operations of the telegraphers' strike, but the time was wasted in the preparation of a special edition for the morning.

One of the chief points which the newspaper editors are to be notified of is the fact that the seal rocks have disappeared from the Pacific Ocean.
