The prospect for an early opening to the

public of the Sutro baths, located on the ocean beach, just north of the Cliff House,

is very flattering. The years that have been

spent in boring tunnels, blasting rock, con-

productive of a very comprehensive system

of works that for luxurious completeness it

will be very hard to equal in any of the

popular bathing resorts of the known world.

The Closing Day of the Christian Convention.

Powerful Addresses From Earnest Speakers. Another Vast Audience in the Mechanics'

Pavilion Last Night.

Yesterday-the third and last day of the Christlan convention-was marked by the same devotional thought, consecration of souls and prayerful thankfulness that characterized the previous two days.

The convention has been a great success. spiritually and in other respects. It has been the means of bringing together different classes and denominations in the one common desire and aspiration of transforming San Francisco from wickedness to righteousness, and to effect this great object to carry on the good work done by Evan-gelist Mills and L. B. Greenwood. But it the benediction. has done more. It has brought clergymen

of all the denominations together on one common platform, and has thereby done much to do away with the jealous feeling that has existed among them, and instill into their hearts a broader feeling of brotherly love and kindness toward each

A testimony of its spiritual success was A testimony of its spiritual success was seen in the large congregation that remained in Calvary Church yesterday afternoon for the final after-service. Conparatively few left their seats after the service proper was over, and by their devout attitude alt those that remained seemed to fully realize that the spirit of Gcd was in their midst and dwalling in them

dwelling in them. At the midday service in the Y. M. C. A. Hall there was another large attendance. A feature of the meeting was the fact that more testimonies were given than at any previous service in that hall. The Mechanics' Pavilion contained another vast audience last night, among them being between 300 or 400 Chinese and Jap-anese. If the large number that remained to the after-service is any criterion of the number of conversions, then Evangelist Mills and those assisting him have every reason to be grateful at such striking evi-dence of the good work being done.

THE MORNING SESSION.

The Promise of The Father Discussed. What It Is-We Need Him.

Kev. Dr. Easton took up the second head. "The center and pivotal point of being en-dued from on high," said he, "is the ex-ercise of faith. What the keystone is to the arch, so is faith to the divine system. "Take faith from the Christian life; take faith out of the Christian system and you have nothing but chaos. I put myself against the door and told them if they did not be-have themselves I would put every officer out of that church. They did not behave themselves and I turned every one of them out and out in new officers. I expected to be turned out next, but I stayed, and there began a most wonderful revival." crowded and great interest was manifested in the service. The subject for consideration was "Thy God Hath Commanded Thy Strength. Mr. Greenwood led the discussion with few sharp and pregnant remarks. Testimonies were afterward given and nore testified to their conversion and joy in

"The Promise of the Father," was "We May Receive Him." This was divided into three heads: "By Self-renunciation," "By Faith," "Waiting Upon God." Rev. Dr. Henry led on the first head. "Every man," said he, "by his freedom of will seeks to be supreme. In some sense man was born to rule. The question of who is to rule is answered by the words, "one that is the brightest and best." Self-renunciation and submission honors God renunciation and submission honors God

and pays tribute to his glorious character and will, "Moral law is the will of God given to man in the commandments. It is authorita-tive, but not compulsory. God does not force any man to be a Christian. God does not force any man to become consecrated. That rests with the man himself.

"We must have the suppliant will, the surrendered will, the identification of Christ's will with the will of God, the ex-ultant will, before we have this perfect blessedness, this enduement from on

"No matter," said he, "how great the bap-tism yesterday, there is a greater baptism for to-day. Why should God yet say, "Tarry for 10 days longer?" Because ye are not ready yet to receive the spirit. We must tarry until the conditions are met; until we give ourselves unconditionally to God and then he will lead us on to do his work. "When we are filled with the spirit of the you the work you can do. "Trust in the Lord and wait patiently for him. It is good for man to hope and pa-tiently wait for the word of salvation. Why need we pray for the holy spirit-is

"Why need we pray for the holy spirit-is it not always with us?" It is here, but it is not with every one. There is air nearly everywhere; it will go where it can, but it cannot go where there are other things; so it is with the holy spirit. You must fulfill the conditions for its coming to you. "If power follows entire consecration, why does it not always come to those who are consecrated?" An honest, dead-earnest soul gets all there is for any soul. If the revelation is lacking, there is something lacking in the consecration. If we just acking in the consecration. If we just step out and say with full consecration. "Lord, God, I have fulfilled the conditions," we may rest assured he will do the rest. "If we seek consecration, will the coming of the spirit be delayed until all hidden things in our hearts are removed?" Turn everything over-hidden and discovered. "How may we know the mind of the "How may we know the mind of the spirit in something we want to do, or a journey we want to take?" Don't want to go on a journey, or want anything-just do as God wills; don't have any will of your own. Let God blow you around. Move around in about the same way as the planchette used to do in the way as the planchette used to do game popular some years ago. Just let God rest his hand on you and move you as he

will. "What is meant by the unity of spirit meeded to receive the spirit?" Nothing is meant as concerns individuals. If there meant as concerns individuals. If there are persons not in sympathy with religion work is greatly hampered. The spiritual atmosphere is all important. My sormon at the Pavilion last night was for church members—on christian consistency—yet there were over 200 who expressed a desire

to lead christian lives. "Does God give you the holy ghost until just before you need it?" It is in you all the time. God's power is not an electric shock. It is not a freak of divine grace. You may be a conscious conductor or an unconscious conductor, but the spirit is there just the

JOHN C. PELTON'S BENEFIT. Friends and Pupils of the Pioneer Schoolmaster Respond Promptly. Metropolitan Temple was filled to the

doors last night by the friends and former pupils of John C. Pelton, the pioneer teacher in San Francisco. The public school principals of the city had arranged a benefit lecture for the veteran schoolmaster, and the affair was a rousing success. Major Henry Dane delivered his lecture on New Zealand without money and without price, and the entire proceeds of the entertainment except the hall rent were turned over to Mr. Pelton. Several hundred tickets sold by the school children were not

taken up at the door, thus making the re-ceipts much larger than the house indi-cated. Major Dane delivered a most in-structive talk on New Zealand, imparting many interesting facts acquired by one year's wandering in that wonderland of Oceanics. Colored more more rest Oceanica. Colored maps were used by the lecturer in illustrating his remarks.
