Preparing for Shrine Host's Visit

This is seen a section of the Cliff House roadway, which is being completed so that visitors to San Francisco will be able to see the city from the Golden Gate with a feeling of comfort and safety. The dust spot on the photograph is a large section of road and rock as it was approved by a State Board.

More Truth Than Poetry

By James J. Montague

POLITICS IN THE AIR

They were smiling and a campaign speech by radio in the city...

But now, with the radio clamped to your ear, the thing that is being said is...

You never can tell, as you eagerly hark to the things that come over the air...

You hope for some just or a market boom, but it is likely that the thing you will get...

Can you give us a better, more true, more honest, more just, more honest, more true, more honest, more true...

Can you give us a better, more true, more honest, more just, more honest, more true, more honest, more true...

Can you give us a better, more true, more honest, more just, more honest, more true, more honest, more true...

Can you give us a better, more true, more honest, more just, more honest, more true, more honest, more true...
