HENEY ON GREAT PLAN COUNTY IRRIGATION

Candidate for Democratic Nomination for Governor Speaks Here

Francis J. Heney, candidate for the democratic nomination for governor, spoke to 300 people last night at the court house, all that the court room could accommodate. He was introduced by James H. Boyd.

"There are some," said Mr. Heney, "who say we ought not to trade horses in the middle of the stream. I say we ought to know whether or not we have a horse good enough to cross the stream."

He discussed at length the probe of the packers, which he conducted until April 1, and told his audience many of the facts that had developed at the public hearings. The other facts, he said, he could not discuss until the report of the federal trade commission is made public by President Wilson.

Mr. Heney paid high tribute to the president of the United States, described him as the one man to whom all the allies look. The principal constructive feature of Mr. Heney's address was his pledge of efforts to bring about the irrigation of a vast section of the 5,000,000 acres of desert land in San Bernardino county, to be sold on 50-year payments to returned soldiers.

Some High Lights Here are some of the pointed paragraphs taken from Mr. Heney's address: "I shall not do or say anything in (Continued on Page Six)

DRY BILL TO GO OVER TO AFTER THE RECESS

Senate is Expected to Vote on Telegraph Control at Session Today

WASHINGTON, July 12.—While the senate today continued to debate the house resolution authorizing government control during the war of wire and radio systems, leaders framed a program for a vote on it tomorrow.

Prohibition advocates are said to have agreed to this plan, and ratification by the senate with recesses beginning tomorrow evening is expected, unless the president's veto of the agricultural appropriation bill with its \$2.40 wheat amendment should operate to keep the senate in session next week.

Delay in reaching an agreement was said to have blocked a vote on the wire control resolution. With a roll call in prospect tomorrow, approval of the resolution was conceded in spite of opposition that had been voiced on the senate floor.

Senators Sherman, of Illinois, republican, and Lewis, of Illinois, democrat, were the principal speakers today, the former opposing the resolution and the latter urging its enactment. Senator Sherman severely assailed Chairman Creel, of the committee on public information, suggesting extension of government censorship was involved in the legislation, while Senator Lewis stirred up a spirited debate by charges that administration legislation had been blocked consistently in the senate, indicating lack of confidence in the administration.

Senators Smoot, of Utah, Wadsworth, of New York, republicans, and Reed, of Missouri, democrat.

Importance of final action on prohibition legislation because of its possible effect on the new revenue bill, soon to be framed by the house ways and means committee, was brought to the attention of President Wilson tonight by Senator Simmons, chairman of the senate finance committee. He gave the president estimates of the loss of revenue to the government which prohibition would cause with the request that he give it careful study before the prohibition legislation is brought to a vote in the senate.

Before agreeing today to the recess plan, prohibition leaders got a definite promise that the senate would give the \$11,000,000 emergency agricultural appropriation bill, with its prohibition amendment right of way until a vote was had after recess.

By Associated Press to THE SUN LONDON, July 12.—Lieut. Gen. L. Horvath, vice president and general manager of the Chinese Eastern railway, having declared himself premier of a temporary Siberian government, has been proclaimed provisional ruler of Siberia, according to a dispatch to the "Mail" from Harbin.

PARIS, July 12.—(Havas Agency).—M. Tchernoff, a leader of the Russian social revolutionists, is marching to Moscow at the head of numerous bands of unarmed peasants, says a dispatch from Stockholm to the "Matin." Part of his force has arrived in the outskirts of the Bolshevik capital.

A dispatch received in Paris July 9 reported that M. Tchernoff and three other members of the Kerensky cabinet had been arrested in Moscow as leaders of a revolt against the Bolsheviks.

AMSTERDAM, July 12.—German official circles are of the opinion, says a Berlin dispatch to the "Rheinische Westfaelische Zeitung" of Essen, that in event of civil war in Russia, the vital interests of Germany would force her to act in order to eject the British in the north. (The reference here is evidently to the Murman coast region.) Intervention by Japan in Siberia, adds the dispatch, is regarded as of secondary importance.

Wilson Vetoes Wheat Price of \$2.40; Says It Would Be Too Great Raise in Living

WASHINGTON, July 12.—In vetoing the \$28,000,000 annual agricultural appropriation bill because of its amendment fixing the government guaranteed minimum wheat price at \$2.40 a bushel, the president informed congress today that he did not believe the farmers of America "depend upon a stimulation of price to do their utmost to serve the nation and work at this time of crisis."

A fixed minimum price of \$2.40 a bushel the president said would increase the price of flour from \$10.50 a barrel to \$12.50 a barrel and would put an additional burden of \$37,000,000 this year on the consumers. Such an increase in price, he said, would force a similar increase in Canada, thus enlarging the whole scale of financial operations in this country. The house is expected to pass the bill tomorrow with the price fixing amendment eliminated, leaving the guaranteed price at \$2.20 a bushel.
