.....The New Idris Quicksilver mine in Fresno county, is again in operation. A thousand shafts of quicksilver are now, or soon will be, shipped to market.

.....Cook performed the feat of walking the rope from the Cliff House to Seal Rock last week without any serious trouble. Every body was delighted.

.....The Index, Confederate London organ, has quietly given out. Its last number has been published, and its editors can now turn their attention to some more honorable calling.

.....ALEX. McLELLY, Supervisor elect of the Hornitos District, took his seat on the Board last Monday. He has ably and faithfully represented that District in former years.

.....Some of the men in Sir JOHN FRANKLIN'S expedition are said to be still living, and efforts are being made to ascertain the truth of the statement.

.....DEPARTED.—FRED. LAW OLSEN and family departed from Bear Valley last Wednesday for New York. They propose taking the steamer of the 13th.

.....WERTZ, the Andersonville prison keeper, now on trial at Washington has applied to his Northern Copperhead friends for assistance. They would encourage his course of crime, but won't give a cent to help him out of it.

.....MR. CHRISTOPHER C. WILSON, who was lately shot on Saturday evening last by Mr. LAWRENCE, died Monday morning following, about 3 o'clock. He was a useful and industrious citizen. He was buried by the Odd Fellows of this place on Monday evening, of which Lodge he was a worthy member.

.....The Income List of this county is now being prepared. We intend publishing it in an early day, for the purpose of showing how few people in the county who do a big business, make a respectable return. People either misrepresent their business, or lie outrageously in giving in their Income.

.....CRAZY!—We saw a man on the street a few days ago who talked of Petroleum! He is in favor of one more assessment, on some claim against the—Lord only knows where. He will be sent to Stockton surely.

.....JIM SKANKER, the popular individual who "holds the ribbons" between here and Hornitos, departed to us on last Monday a genuine St. Bernard pup, five months of age, a present from our old friend IMA MCCOY, of Millerton. We feel obliged "muchly," I say, and will say more when we see you.

.....How is it?—During election excitement the Free Press has been so busy that it has not had time to say of an old trouble of Crippen's—how about what it said was a case in which he got behind with the county, and paid up. It happens that one of its political friends becomes a defaulter, and though it was discovered last February and has not yet been paid we hear no complaint from the Press. As Supervisors, District Attorney, and all such are on that side we suppose nothing will be said or done about it. How vigilant those Democrats are in following up their political opponents—how loquacious to the detriment of their own party.

Killing of Chris. Wilson.

It again becomes our painful duty to record the details of another homicide which occurred in this place last Saturday evening on Main street, in front of the Arcade Saloon—where all the shooting and killing of CHRIS. WILSON by JAMES H. LAWRENCE, senior editor of the Mariposa Free Press. We conceive it to be our duty as a journalist to publish the circumstances and particulars under which this homicide was committed, and in commenting upon the same shall endeavor to be faithful and impartial to all parties concerned. It appears from the evidence brought forth at the examination of Mr. Lawrence, which took place on Monday last before Justice GILKINER, that the deceased had, just previous to the shooting, been quietly sitting and conversing with Mr. GEORGE TEMPLE, at the saloon above mentioned. After conversing some time Wilson remarked that he would go to bed, and walked out to the end of the porch in front of the saloon. At this time, Mr. Lawrence was seen standing close in front of the saloon, but some distance down the street, talking with one PETER JOHNSON. Soon after, Mr. Lawrence left Johnson and walked up street, when Mr. Wilson stepped into the street in front of Lawrence and said, "Lawrence, you don't like me," or words to that effect. Lawrence then spoke to Wilson, and proposed to him to shake hands in friendship, extending his hand, one witness says, with the index finger pointing to Wilson. The latter then said to Lawrence, "If you have anything against me take it out," or to that effect. Mr. Lawrence instantly jumped back some two or three steps, drawing his pistol at the time, cocked it and fired twice at Wilson, the first shot taking effect in the left side, just below the heart, and going nearly through the body, which caused the death of Wilson. The second shot missed.

Wilson made no demonstration to assault Lawrence—the above being all that passed between them. Immediately after the first shot Wilson turned towards the saloon and exclaimed, "Oh, I'm shot," or "I'm a shot man," and walked into the back room of the saloon, and Lawrence ran up street towards his office. Only one of the many witnesses states that he saw a pistol in the hands of Wilson until after the firing on the part of Lawrence. Johnson stated that during the conversation Wilson had his right hand on his hip, and after the first shot he turned his attention to Wilson, and saw a pistol in his hand. Other witnesses state that immediately after the first shot Wilson turned round towards the saloon, with both hands placed near the wound, and they saw no pistol until he was assisted back to a chair, when a pistol was found on his person. Johnson stated also that the first intimation he had that a difficulty would take place, was when Lawrence jumped back and drew his pistol and fired.

The above are the facts of the case, and in the face of all this evidence, the Court saw fit to discharge the defendant from custody. No witness stated that Wilson made the slightest demonstration towards assaulting Lawrence— that he did not change his position when Lawrence jumped back and fired, or raise his hand until after he had received his fatal wound— he then turned away from Lawrence, who who again fired at him and then ran away.— It was permitted in evidence to show that the deceased had made threats against Lawrence just before the difficulty—but this was not made known to Lawrence. He had, however, been informed some time previous that deceased had threatened him, and they had a difficulty at the time of the Democratic Convention in July last.

Both parties are old citizens of this county. Mr. Wilson has for many years been engaged as a sawyer in the different sawmills in this neighborhood, and was well known as an industrious, hard working and useful citizen.— He was generally a temperate and very peaceable man, yet occasionally would permit his reason to be carried away by intoxicating drink, on which occasion he would sometimes become troublesome to those towards whom he entertained any dislike. On this occasion Wilson was in liquor—killed an intoxicated! While thus speaking of the faults of deceased, we must say, as a true journalist, that the same thing is true, and to a much greater extent, of Mr. Lawrence. He is constantly armed, and within a very few weeks past has had many difficulties—made assaults upon inoffensive persons with a six shooter, invariably with just provocation. If Wilson was a dangerous and desperate man, Lawrence was the most dangerous, and the greatest desperado, and the rule of law that acquits Lawrence of the murder of Wilson, would have justified his being slain on numerous occasions during the past year. But we cannot justify the killing of this man, as did the Justice. We do not think or believe that he was acting in necessary self defense, or even in self defense at all, for Wilson had made no demonstration towards assaulting or injuring the person of Lawrence. We believe that the attack upon Wilson was unprovoked, and entirely unjustifiable, and not sustained by the evidence, or the law of justifiable homicide.

Richardson's Description of the Yo Semite.

.....We have looked with some curiosity for the report of RICHARDSON'S of the COLFAX party, and a correspondent of the New York Tribune, on the Yo Semite. It has appeared, and of all the efforts at description of the Valley, it seems to us the most indifferent. He speaks of the view of the valley from Inspiration Point, as being like "looking at a garden from a house top," and his other illustrations are equally devoid of originality or point.— After reading carefully his description of the wonderful features of the Yo Semite, one who had never been there would have about the same idea of that place as would have been formed after reading a description of a jachias. It is a difficult task to portray in a short letter the grand views that the Yo Semite presents; but when distinguished writers attempt any such thing they should at least do more than make a list of facts. It is surprising that any one with a fair gift of language, or any admiration for natural beauty, can sit down and write such stupid stuff as passes the rounds of the papers upon the Yo Semite or Big Trees.

SHARP TRICK.—JOHN McGRATH, Jailor, yesterday morning upon entering the Jail, discovered a large butcher knife lying under the steps leading from the first to the second story of the building. He says it was used in undoubtedly intended for some of the inmates.

.....The new Produce and Provision store of Messrs. MURPHY & BOGAN, on Main street, in this place, was opened for the first time last Wednesday night. Murphy was on hand, doing the honors of the house, while his many friends were sampling Champagne, Old Bourbon, and Monongahela. They have a fine stock of Provisions, Wines, Liquors, &c., on hand, and are constantly adding for the winter season.

.....The Stockton Fair closed last Saturday, after a very successful run of three days.

Attempts to Assassinate Grant and Sherman.

Late Telegraphic news from the East indicates that the venom of the enemies of the Union has not been fully expended in the assassination of President LINCOLN. There are still in the land, and in the Northern States, those who are not satisfied with the result of the war, who are anxious for more blood to be shed, and are following their natural avocation, that of wholesale murder. Efforts have been made to kill off GRANT and SHERMAN by turning cars off the track, the guilty parties evading being willing to destroy a car loaded in order to ensure the death of one. This is the result of the bitter Copperhead partisan teachings, of the venomous denunciation of all who have aided in carrying on the war. It is the natural sequel of the denunciation and howling over the execution of Mrs. SERRATT, and trials by military commission. A few more occurrences of the kind and the people will take charge of such affairs and of all who participate in them, and a summary and meted punishment be inflicted not only on the assassinated murderers, but upon all who covertly or in disguise encourage or countenance their acts.

Becoming Odious.

In Iowa the regular "Democratic" State Convention met some weeks since, and determined to change the party name. In the name of Democracy the rebellion was brought about, and the war of four years has been carried on by its supporters. Conventions have been held in Northern States, and in their declaration of principles have been careful in denouncing the Government, and making such action as would encourage its enemies. The "Democracy of Iowa seem to realize the stigma that is attached to the name, and to appreciate the importance of making a change of name. They have openly repudiated the name of "Democracy," and styled their party the "Union" party of Iowa. In fact they have come out as nearly Union as circumstances would admit of. They see that during the four years of war, and when loyal citizens abandoned party, and only sought to support such men and measures as promised to aid in preserving and maintaining the Government, a set of demagogues combined together, and using the name of Democracy, endeavored to advance their own interests at the cost of principle, country, and all moral obligation. The name becoming odious, "Democracy" is no longer attracts.

Mexican Affairs.

The news from Mexico is so contradictory that it is impossible to form any definite conclusion as to the real state of affairs in that distracted country. In one mail we are assured that the Imperial party is successful at all points—thousands of rebel soldiers are enlisting to help MAXIMILIAN rivet the chains of despotism upon an unwilling people—the liberal party, defeated in the field, without military or pecuniary resources, is fast wasting away, and the whole people gradually becoming satisfied with the rule of the foreign prince who has been forced upon them. In another, an entirely different statement appears, and the prospect of FRANCE's departure is brightening—thousands of volunteers springing to arms under his banner—and the chances for driving Maximilian out of the country are increasing. A few months may settle this Mexican "muddle," but at present with the contradictory reports from them it is impossible for one to form any definite opinion as to the real condition of the respective parties.

In Ohio the radical Democrats have refused to unite with the conservative wing, and have put forward a ticket for State officers upon a straight out States Rights platform.— ALEX. LONG, a venomous ex Congressman from the Cincinnati District, is their candidate for Governor. In New York there is a like split, and the indications are that the two wings of the "Democracy" are pretty well divided in those two States.

The Methodist Episcopal Conference, which closed its labors last week at San Francisco, made the following appointments for this and surrounding counties: Mariposa—J. McKEELY, Knight's Ferry to be supplied, Visalia—W. GAFFNEY, Tule river and Linn Valley to be supplied. R. W. RISK, formerly of this circuit, is stationed at Forrest Hill, and J. BALDWIN, at Colusa.

CONGRUENT.—Good for the following firms in this county arrived Tuesday last at the Stockton wharf: D. E. AGUA FRIA; C. B. BEAR VALLEY; G. B. AGUA FRIA; A. L. INDIAN GULCH; B. & C. COLORADO.

Precincts Abolished.

The Supervisors have complied with the law in ordering an election for Justice of the Peace, and they have commenced a "reform," in cutting off and abolishing precincts, that indicate, in our opinion, limited consideration of their acts. They abolish the precinct at WHITE & HATCH'S, but leave that at LOVERJOY'S mill. The precincts at SHERLOCK, MORMON BAR, Stockton, Mount Ophir, Agua Fria, Lewis' Ranch, Mouth of Sherlock's and Green's Store are abolished. We believe in many of these places the polls should be opened. It can cost but fifteen dollars to hold the polls at any precinct, and the Supervisors will compel the voters at nearly every place where they have abolished a precinct, to travel many miles, or not vote. Right or wrong, the action of the Board will work a great hardship, and in many cases much injustice. We are of the opinion that it is a bad idea of economy that restricts the precincts, and deprives many of the most unbiased of a right to vote, and we shall keep on thinking of the action of the Board injudicious and unjust.

CORONER'S JURY.—County Coroner GRANDVOYER has been kind enough to furnish us with the following verdict of the jury summoned by himself to investigate the causes leading to the death of Mr. CHRIS. WILSON: We, the jury of inquest summoned by J. GRANDVOYER, Coroner of Mariposa County, to inquire into the cause of the death of CHRISTOPHER C. WILSON, State of Mariposa, and about 35 year, and that his death was caused by a pistol shot upon Saturday evening, Sep. 2nd, 1865, in the town of Mariposa, by the body of a knife, at Collierville, at the time in the hand and fired by James H. LAWRENCE. Signed: J. H. C. CANTRELL, GOV W. MURPHY, J. M. HIGGINS, NAT. HARRIS, JAMES O'NEILL, CHAS. D. SHERMAN, HENRY ALDRICH, CHAS. J. SHERMAN, E. B. BOLLES, MARIPOSA, October 2d, A. D. 1865.

.....An Indian was killed at Collierville, in this county, on Sunday evening by a Mexican named PANCRO GARCIA. The latter was brought to town and examined before Justice McVICAR, who committed him to await the action of the Grand Jury. The following is the verdict of the Coroner's jury, summoned by County Coroner GRANDVOYER: COLORADO, October 2d, 1865. We, the undersigned as members of this jury do certify that on the 1st day of October, 1865, a man by the name of PANCRO GARCIA, of the State of Mexico, was killed by the body of a knife, at Collierville, Mariposa County, on October 1st, 1865. Signed: E. GRANT, R. SANNEY, J. W. THOMAS, ADAM BOHLE, J. W. DUNBAR.

A TRIBUTE

From a Friend, in Memory of Our Lamented Companion, DAVID A. DAVIS: Gone from our midst in youth's bright morning, Pure as the flowers that deck his head, Or the fair wreath his breast adorning, Love's farewell offering to the dead. Gone from our midst the friend, and brother, And vacant seems the future years; Our grief for him we scarce can smother, His memory is embalm'd in tears. Throw open wide the gates of Heaven, While angels hail the spirit's birth; A soul returns that God had given, A few brief years to grace our earth. Gone from our midst, and yet we cherish, His gentle tone, his tender smile; He stands till nature's self shall perish, A planet on God's starry aisle. Oh! weeping mother, look to Heaven, Ah! mourning sister, dry that tear; Tho' deep to you the grief that's given, You'll meet him in God's holy sphere. ALBANY, Mariposa, Oct. 2d, 1865.

The Fenian Excitement.

The Fenians have for a long time been the cause of much talk and public sensation in England; but since the suppression of the rebellion in this country there appears to have been a complete extinction of the Fenian Telegraphic dispatches are to be believed, the whole of Ireland is in a state of revolution; the able-bodied portion of the people have been drilled preparatory to the contest; arms have been distributed, and many Irishmen who have fought bravely in the Union Army during the late war, have returned to their native land to aid in wrenching it from the rule of England, and giving it a position among the nations of the earth. The earlier reports seemed to have been the product of excitement or imagination, but the space given to the discussion of the question by leading London journals—the increase of the police force in Ireland—the large number of arrests, and the late Fenian dispatches, indicate that serious trouble is not only talked of, but is very plainly threatened. Whilst all this is progressing, and drawing the public attention to a greater extent than any other question; while Fenian meetings are being held all over Ireland (when not prohibited by the authorities) and the enthusiasm and sensation is on the increase in the United States—meetings of immense size and spirit being held in the most of the large cities, it is noticeable that word comes apparently from the Pope, which, though pretending to contradict something that few ever heard asserted, is evidently intended to throw the influence of that individual upon the side of the oppressors of Ireland. And even to late as last August the Archbishop of St. Louis stated that the "members of the Fenian Brotherhood, men or women, are not admissible to the sacraments of the church so long as they are united with that association." We refer to this—but one of many such acts on the part of the Catholic leaders—for the purpose of calling attention to what we believe will eventually be serious difficulty. The most of the Fenians are Catholics, and they are opposed by the heads of that Church. They are—strange and unusual as it is—virtually threatened with excommunication if they persist in their course. The general support of the order in this country is such that the most important results are looked for when the time comes for making the final effort. Should the revolution in Ireland be properly commenced, the aid from America will render it no trifling outbreak, and its effect in a political and religious point of view will be more important than may at present be supposed.
