THE DAILY EXAMINER.

MONDAY EVENING..........SEPT. 25.

LOCAL INTELLIGENCE.

THE ROPE-WALKING FEAT A FAILURE.—It was announced for several days last week through the city papers that James Cooke, the circus clown, would walk a rope suspended from near the Cliff House, at Point Lobos, to Seal Rocks, a distance of 450 yards. The rope was stretch over the ocean during the latter part of the week, and yesterday (Sunday) afternoon was the time fixed for the walking to take place. A tremendous crowd left the city to see the wonderful feat. The steamer San Antonio had been advertised to carry excursionists out through the Golden Gate to the scene of the walking, but on Saturday evening the steamer was withdrawn, for the reason that the Boiler Inspector would not let her go on account of defective boilers. Every vehicle in the city almost was used in conveying people to the Cliff House, and the Lone Mountain cars ran till after 1 o'clock, loaded down with people. The scramble for seats was great. A crowd of probably ten thousand people collected on the ocean bank near the Cliff House and awaited for Mr. Cooke to appear. The wind was blowing keenly from the South, and to make the situation still more disagreable, rain began to fall. And to crown all, Cooke failed to walk the rope. Everybody was mad, wet, dirty and disappointed, and the swearing of the crowd rivaled that done by that famous army in Flanders. The cause of the failure of Cooke to walk the rope was that the wind blew too hard.

MISSION AT ST. MARY'S CATHEDRAL.—There was commenced, yesterday, in St. Mary's Cathedral a spiritual mission under the direction of Rev. Father Hennebery, Priest of the Order of the Most Precious Blood. The first discourse was characterized by great fervor of language and powerful appeals to the congregation to avail themselves of the benefits of the Jubilee, proclaimed by the Holy Father, as well as the Mission. This (Monday) morning, as well as last evening, Father Hennebery preached to large congregations. Services will be held every day, until Sunday next, at 9 A. M., and 7½ P. M. Sermons morning and evening. On to-morrow (Tuesday), discourses for married men; Wednesday, for married women; Thursday, unmarried men; Friday, sermons for unmarried women. Father Henneberry is one of the most eloquent priests who ever visited California.

STEAMER SACRAMENTO.—The arrival of this vessel brings to our market large and attractive additions to the stocks of goods of some of our most enterprising merchants. We call especial attention to the advertisements elsewhere of the following Houses, who receive new additions to their goods by each steamer:

TAAFFE & CO., (Dry Goods) 107 Battery street, between Mission and Jessie streets.

J. R. MEAD & CO., (Gentlemen's Furnishing Goods) corner Sansome and Washington streets.

C. CURTIN, (Dry Goods) No. 48 Second street, between Mission and Jessie.

GEO. J. S. HYAMS, (Clothing Bazaar) 431 Montgomery street.

We hope our friends will not fail to drop in at these places, as the stocks of goods in their different lines, are unsurpassed.

BURGLAR SENT UP.—Frederick Smith, a young man not more than 20 years of age, had an examination, to-day, before Judge Shepheard on a charge of burglary. The evidence was sufficient to send him to the County Court for trial, bail fixed at $1,500. Smith is charged with having burglariously entered a room occupied by Constantin Desella in the house of Samuel Marion, East street, and carried off a hundred dollars' worth of gold specimens and coin belonging to Desella. Part of the stolen property was found on his person, and the remainder at a pawnbroker's shop.

ACCIDENTALLY SHOT HIMSELF.—John Allen was raising a rumpus in a saloon on Jackson street, this morning, threatening to blow the top of a man's head off, when officer Earle happened along, and arrested him. The officer had got nearly to the City Hall with his prisoner, when he was startled by the report of a pistol. Allen said he was shot. On examination the blood was found to be proceeding from a wound in Allen's thigh. It seems that he had the pistol in his pantaloons' pocket, and it was discharged accidentally. He was taken to the City Hospital for treatment.

CUTTING SCRAPE.—Edward Flynn and a boy named Wharton got into an "argument" at a boarding house in this city a day or two since, which speedily led to a fight. Cups and saucers were freely used, and finally Flynn cut Wharton with a knife. Flynn was arrested for assault with deadly weapon. After the examination had taken place in the Police Court, to-day, the original charge was withdrawn, and Flynn was allowed to plead guilty to assault and battery. He was held for sentence.

STREET PAVING.—A specimen of the Perry patent of street paving has been laid in Market street opposite the Oriental Hotel. It resembles the Nicolson pavement, except that the wooden blocks are somewhat differently sawed, and no asphaltum is used. It is claimed to be superior even to the latter. If so we pray it soon be put down all over the city. The Nicolson pavement is splendid; indeed, anything is good in comparison to the horrible cobblestone.

LITERATURE.—We are indebted to Michael Flood, Catholic Bookseller, 428 Kearney street, for the September number of the *Catholic World*, an eclectic, devoted to general literature and science. This is one of the ablest periodicals of the day. The back numbers can be had at the above establishment. Also *Freeman's Journal* and *Metropolitan Record*.

ASSAULT TO MURDER.—George Nichols and Chas. Fitz Morris got into a fight on Pacific street, Wednesday evening last, when Nicholas stabbed Fitz Morris several times. He was arrested, and charged with assault to commit murder. His examination will take place in the Police Court on Wednesday.

THE LUCKY MAN.—John Durkee, Fire Marshal, won the splendid gold watch, formerly the property of the late George H. Hossefross, raffled for Saturday evening. The number thrown was 48. Two hundred tickets, at $5 each, were sold.

ARRIVAL OF THE SACRAMENTO.—The P. M. S. S. Co.'s steamer, Sacramento, arrived here at half past 10 o'clock last evening, bringing several hundred passengers from the East.

ARRAH-NA-POGUE.

The theatrical and political elements of our city are being considerably stirred up by the above entitled drama—one of that successful play writer's, Dion Boucicault.

It appears that Mr. Chas. Wheatleigh, of the Metropolitan, purchased the copyright for California, and has been making extensive preparations to bring it out. But that indefatigable, old and enterprising Manager, Thomas Maguire, determining to have something of the same kind in advance, employs a Mr. "Wm. Barron" (Wheatleigh, in his card, calls him a myth) to get up a plagiarized and garbled imitation.

Now, we are quite delighted at this rivalry and row between the managers, since it will ensure greater painstaking in serving up amusements for our citizens; and, especially, for political reasons, that the row is over this "Rebel" play. As to the invaded rights of Wheatleigh, the public care but little. If he has the law against Maguire, the courts are open to redress. All we ask, in the name of the public is, that his play shall have greater attractions than the alleged bogus one got up at the Opera House, when he will draw enough cash into his treasury to pay for prosecuting said lawsuit.

But we have something to say about the character of this play, and the *literati* who signs himself "Wm. Barron." Like Wheatleigh we are inclined to set him down as a myth, since unwilling to believe that any person possessing the least pretensions to literature would place his name to such disreputable and assinine cards, as have appeared over that signature in the newspapers.

As a mere advertising trick of Manager Maguire's, they, though still objectionable, are not so bad.

Pray, what have Boucicault's political opinions got to do with the merits of his play? And be he ever so much a "secessionist," how does this enhance the merits of Mr. Barron's production?

The *play*, indeed, is open to censure from all our "loyal" population, because of its severe satires upon "the Government" of our own land, and exaltation of "rebels." Why, therefore, the excessively "loyal" Mr. Barron should have written, and the equally "loyal" Manager of the Opera House should have played upon his boards, so very offensive and "disloyal" a drama, is what strikes us as so strange. We have only to alter the name of Mr. Barron's "Wicklow Rebel," to that of the Virginia or South Carolina Rebel, when, we doubt not, Major General Halleck would feel himself compelled to prevent its being acted.

To-night Wheatleigh inaugurates his lesseeship of the Metropolitan with this play.

EMPOWERED TO PROCURE A LOAN.—In the matter of the application of the Roman Catholic Orphan Asylum, for leave to procure a loan, before the Fifteenth District Court, it was ordered to-day, by Judge Dwinelle, that the Asylum be granted permission to borrow any sum not exceeding $40,000, at one per cent. a month, for a period not exceeding four years, and to mortgage property on Market street and Silver Terrace, for the purpose of erecting improvements on lot on Market street.

PAID HER FINE.—More than three months ago one Jeannie Castel was arrested in this city for robbing a lady on a steamer while on the way here from Panama. She was convicted of larceny in a San Francisco court, and ordered to be imprisoned for three months, and pay a fine of $100. Her term of imprisonment ended a few days since, and she was ordered to be further imprisoned till she paid her fine. She did so to-day and was released.

SUIT FOR DAMAGES.—B. B. Newman has sued George Barstow, and several others, in the County Court, for $3,000 damages for ejecting him from a ranch, a portion of the south-east quarter of section one, township two, south of range six, west of Mount Diablo Meridian. He also sues for $1,000 damages for waste and injury to the premises, and $125 per month for rents since September 16th inst.

HABEAS CORPUS.—In the matter of the application of Ah Sing for the writ of *habeas corpus*, before the Fourth District Court, to-day, it was ordered that Ah Sing be discharged from the custody of the Sheriff, on the ground that the Police Court had no jurisdiction over him, and that the commitment was insufficient to hold him.

INCOME TAX.—People who are fortunate enough to possess an income are beseiging the Tax Collector's office, to-day, to pay their taxes. Money is flowing into the Collector's office very lively. There are about fifteen thousand persons in this city who pay a tax on income.

OLD GUARD.—To Beige of the New York Book Store, Russ House, we are indebted for the September number of the *Old Guard*. This is one of the ablest political monthlies ever published in America. It ought to be in the hands of every reading Democrat.

ARRIVAL OF A SINGER.—Among the arrivals last evening, on the steamer Sacramento, was Madam Anna Bishop, the famous vocalist. It is her intention to give a series of concerts in California. Madam Bishop is accompanied by Chas. Lascelles, the pianist.

JUDGMENT.—In the case of E. J. Barber vs. Eugene Cazalis, before the Fourth District Court, to-day, judgment was ordered for plaintiff. Judgment for plaintiff was also given in the case of Jacob Schreiber vs. Wm. K. Cutler.

FIRE.—There was a fire on Washington Alley, between Washington and Jackson streets, Saturday evening, about 8 o'clock. It originated in a Chinese tenement, and destroyed it. The damage did not amount to much.

BEGINNING OF THE RAINY SEASON.—During a part of yesterday a fine rain came filtering down on the pavement, inaugurating the rainy season." It dampened the dust, and gave to the atmosphere a delightful temperature.

CHARGED WITH GRAND LARCENY.—Henry Temple Huff was arrested, to-day, by officer Clark, charged with having stolen a gold watch from M. Jordan, the jeweler, in June last. The watch was found at a pawnbroker's.

DISCHARGED.—Patrick Mooney and Henry O'Brien, two soldiers, who were charged with attacking and robbing a member of the 2nd Artillery, a few days since, were discharged from custody, to-day, by Judge Shepheard.

DIVORCED.—C. E. B. Howe was granted a divorce from Mary A. Howe, to-day, by the Fourth District Court.

DEMOCRATIC RESOLUTIONS.

The following are the resolutions passed by the Democratic State Convention, assembled at Sacramento, on Tuesday, Sept. 19, 1865:

Resolved, That we sincerely rejoice in the cessation of war and the return of peace throughout our whole country; and we trust that the momentous lessons of the past four years will inspire among all our fellow citizens greater reverence for constitutional obligations, and those friendly and fraternal relations between the people of all the States, which are the most solid guarantee for the perpetuity of the Union.

Resolved, That the Democracy of California will in the future, as in the past, give a cordial support to the National Administration in the discharge of all its Constitutional functions, and most especially in times of great national peril; that in the face of the manifold difficulties and embarrassments resulting from the late war, the Democratic party will not withhold its support from the policy of the Administration so far as the same tends to secure the rights and liberties of the States and of their citizens.

Resolved, That upon every ground of justice and policy to the white people of the country, as well as of humanity to the negroes themselves, the Democratic party is inflexibly opposed to negro suffrage, and its inevitable consequence, the political and social equality of the negro, in every form; and especially to the unnatural and revolutionary scheme for thrusting universal suffrage, by action of Congress, upon the negroes of the Southern States.

Resolved, That the welfare of California demands, imperatively, that her mining interests should be developed and fostered; and her people are in the same degree opposed to any system for the sale or taxation of her mines.

Resolved, That the whole history of California is a triumphant vindication of her State policy of a gold and silver circulating medium; that any change in this respect would be disastrous in the extreme; and that unwritten contracts for work, labor and services should by law, in all cases, be enforced in gold and silver coin.

Resolved, That the Monroe doctrine is an essential part of the policy of the Democratic party, and of the American people.

Resolved, That when the civil authority is in full operation, there is no warrant in the Constitution or laws, nor even a pretext in any supposed necessity of State, for trials by military Courts, or arrests by military power. And that the writ of habeas corpus should be held inviolable under the provisions of the Constitution.

STATE TELEGRAPH.—By the State Telegraph we have the following in relation to the great race at Sacramento, and other matter:

SACRAMENTO, September 23.—The fastest three-mile running race that ever took place in America, resulted in the triumph of "Norfolks" over "Lodi," this afternoon. It is utterly impossible to convey any adequate idea of the enthusiastic excitement which prevailed amongst the eight or ten thousand persons who witnessed this unparalled struggle between the two fastest horses in the Union. The race was three-mile heats, for a purse of $2,000. The first mile of the first heat was won by "Norfolk," in 1:48, two miles in 3:40, and heat in 5:27¼, being the quickest time on record. [Not so, "Idlewild" was the winner of a three-mile race, on the Centreville Couse, Long Island, in which one heat was run in 5:27¼.] Throughout this heat "Norfolk" led, with the exception of a few rods on the back-stretch of the third mile, when "Lodi" collared his antagonist, and gained for a moment a slight advantage. "Norfolk" passed the judges' stand only a length in advance at the end of this heat. "Lodi" had the pole at the start, but lost it in rounding the first quarter stretch. The horses got off well together on the second heat, "Norfolk" soon leading, and keeping the advance until its close, coming home in 5:29½, and about five or six length in advance. First mile, 1:47¾; second, 1:50¼; third 1:51½. Average time of miles, 1:49½. An immense amount of money changed hands, the odds being 100 to 20 on "Norfolk."

Another race was immediately made up, "Norfolk" to carry the same weight as "Lodi" who on this occasion had ten pounds more on his back than the former.

The second running race of this day also created wild excitement, being mile heats, best three in five. "Peggy Ringgold" won the first heat in 1:48¼; "Flora" the second, in 1:47; "Pilot" the third, in 1:48½; and "Peggy" the fourth and fifth in 1:48¾ and 1:50½. The race and purse of five hundred dollars was awarded to "Peggy." "Flora's" rider was thrown at the commencement of the third heat, and another boy rode her during the remainder of the race. The backers of "Pilot" lost heavily.

Three hours and a half were consumed in running these races. The weather and track could not have been in more splendid condition.

THE OREGON MAIL.—Concerning the suspension of mail facilities between California and the North, the following explanatory dispatch has been received in this city:

WASHINGTON, September 20, 1865.
Wm. Meyers, First Vice President Chamber of Commerce:

For four years, by Congressional enactment, and at a price named by themselves, the California Stage Company conveyed the mails from Sacramento to Portland at $90,000 per annum. Last year, when gold was selling at 260, they were allowed two hundred and fifty thousand dollars. They now demand three hundred thousand. With gold at 140, this sum is deemed extortionate. No more than two hundred and twenty-five thousand dollars will be allowed for a daily mail. If the California Stage Company accept this, service can be revived at once; if not, sea service will have to be submitted to until other arrangements can be made.

G. W. MCCLELLAND,
Assistant Postmaster General.

GUARDIAN APPOINTED.—In the case of Edmund Gulliver et al. vs. Joseph Woods in the Fifteenth District Court, to-day, Harriet Gulliver was appointed guardian *ad litem* of infant plaintiff.

RUBBER GOODS.—See advertisement of the celebrated Rubber Clothing Company. It is worth a call, at 642 Sacramento street, to see their splendid stock of goods.

DECREE FOR PLAINTIFF.—In the case of Sol. Eckstein vs J. Davidson *et al.*, in the Fourth District Court, a decree was ordered for plaintiff, to-day.

CLOSED FOR REPAIRS.—The County Court has adjourned till next Saturday, for the purpose of having the Court Room repaired and cleaned.

DISCHARGED FROM HIS DEBTS.—Jacob R. Smith was discharged from his debts, to-day, by Judge Cowles, of the County Court.

The London critics do not all like the class of plays in which John Owens appears, and the *News*, after seeing Toodles, hopes "he will allow us to see him in something which a human being can witness without being ashamed of his species."

The bridge across the Hudson and Albany, for the Hudson River Railway, is begun. The draw is to allow all vessels to pass, is to swing upon a circular rail 27 feet in diameter, and will weigh about 200 tuns.

Why talk about not sleeping a wink? When people sleep they never wink.

☞ Allcock's Porous Plasters are Tonic and carminative, which renders them of peculiar value in many affections of the chest and bowels, more especially when of a nervous character; they, in fact warm and, to a certain extent, vitalize the part to which they are applied. These strengthening, warming and pain-relieving Plasters will be found invaluable in Weakness of the Back, Chronic Rheumatism and Contraction of the Muscles, Neuralgia, Local Nervous Affection; in Asthma and Pains in the Side and Chest, especially when proceeding from Dispepsia or Weakness, or a sense of Coldness in the Pit of the Stomach; in chronic or recent Affections of the Kidneys in cases of Sprains, Strains or Bruses; and in nearly all cases where a local pain or weakness exists.

Testimonial of the Press.—It is curious to see how variously "the longing after immortality" attacks the children of genius, "scorning the laborious degrees by which they did ascend"—like the courageous falcon, they fix they eye upon the loftiest quarry, and make the poor children of earth dizzy with their sublime flights of genius. But we speak metaphorically, and we must come down a peg or so. Dr. C. W. Moore, of the Medical and Surgical Institute celebrity, of San Francisco, has found a quarry worthy of his aspirations, and one which throws all quondam surgeons completely into the shade. By a new, original, delicate, yet simple mode of surgical operation, he performs a radical cure of Hernia in the short space of three weeks. A great victory in surgery, truly, and one well worthy the consideration of the thousands who are the victims of this heretofore incurable affliction. We do not wish to disparage other physicians in private practice in this city, or deprive them of their well earned laurels—we appreciate the talents of some of them, and honor and command their zeal; but with all deference and due respect, we must say, that there is too much importance placed upon some men's position in the profession, to the great detriment of science and indefatigable investigations. When we reflect upon the want of scientific progress, as characterized in most all our medical schools—adhered to in all our public hospitals, as well as in private practice—we can but congratulate the many thousand invalids who annually flock to this metropolis for medical and surgical treatment, in being able to avail themselves of the superior facilities afforded to this Institute. Aside from the most skilful treatment and nursing, the large, airy and elegantly-furnished rooms, will enable the patients to enjoy all the comforts and luxuries of a home. All in all, we regard Dr. Moore and his Institute a most valuable acquisition to the Pacific coast—the need of which we have long since felt.—[Sunday Mercury.

☞ Fever and Ague is cured by BRANDRETH'S VEGETABLE PILLS.—TREATMENT.—Previous to the commencement of the cold stage, bathe the feet and legs in hot water, and apply a mustard plaster to each of the feet; then give the patient sufficient of warm boneset tea to produce vomiting. As soon as the stomach is settled, give an adult at least six Brandreth Pills, and repeat the dose promptly until powerful evacuations are induced. During the cold stage, the patient should be covered warm in bed, and heated bricks applied to the feet, and drink freely of hot stimulating herb teas.

During the hot stage the treatment must be reversed, the clothes gradually removed, and cold drinks used. During the sweating stage nothing but good and appropriate nursing is necessary. During the intermission is the time for the use of Brandreth's Pills, which will expel from the body all those evil geniuses that have had an agency in producing the disease, induce the natural secretions, and restore the patient to his former health.

The duration of the disease will depend much on the condition of the patient at the time of attack. When the general system was but little deranged, I have often known one, two or three heavy doses of the Brandreth Pills, followed in quick succession, to break up the disease entirely. But when the system has been long exposed to those influences that produce the disease, and the general system becomes thereby enfeebled, the cure will necessarily be proportionally protracted. But in all cases take the Brandreth Pills once or twice a day, in full doses, say six or more, and drink of cold boneset tea, four or five times a day, until restored to health. I ought to have mentioned the use of strong black pepper tea, drank hot in the cold stage, and how it may also be drank daily in anticipation of it.

If the above directions are strictly attended to, a cure will speedily be effected in nineteen cases out of twenty.

MEDICAL ADVICE.—Dr. Wm. K. Doherty's Medical and Surgical Institute is becoming a "SINE QUA NON" to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural effect of such a cause. We are personally acquainted with gentlemen who had suffered for years under the chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them relief. It is gratifying to announce this fact, because the Doctor is a gentleman who seeks, not by defamation of others, to establish his reputation, or to rear the superstructure of his own upon the ruin of another's fame. The Doctor conducts his institute in such a manner that must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertains to that confidence. Persons afflicted with either acute or chronic disease would do well to consult the Doctor; at all events, "it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—S. F. News.

DR. DOHERTY, 515 Sacramento street, a few doors below the "What Cheer House," successfully treats all cases of disease, and will guarantee every cure. Consultation free; charges moderate. Read his card on fourth page.

DR. GIBBON, 617 Kearny street, cures more private diseases than any other advertising Physician in San Francisco. Consultation free. See fourth page.

HOSTETTER'S
Celebrated Stomach Bitters.
A PURE AND POWERFUL TONIC,
Corrective and Alterative, of wonderful efficacy in diseases of the
Stomach, Liver and Bowels.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague, and Bilious Remittent Fevers; Fortifies the System against Miasma and the Evil Effects of Unwholesome Water; Invigorates the Organs of Digestions and Bowels; Steadies the Nerves, and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex, arising from Bodily Weakness, whether inherent in the system or produced by special causes.

NOTHING that is not wholesome, genial, and restorative in its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botannical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

It is well to be forearmed against disease, and, so far as the human system can be effected by human means against maladies engendered by an unwholesome atmosphere, impure water and other external causes, HOSTETTER'S BITTERS may be relied on as a safeguard.

In districts infested with Fever and Ague, it has been found infallible as a preventative and irresistible as a remedy. Thousands who resort to it under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvellous medicine. Fever and Ague patients, after being plied with quinine for months in vain, until fairly saturated with that dangerous alkaloid, are not unfrequently restored to health within a few days by the use of HOSTETTER'S BITTERS.

The weak stomach is rapidly invigorated and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Langour, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Bilious Colic is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it the return of the complaint may be prevented.

For sea-sickness it is a positive specific—either removing the contents of the stomach, and with them the terrible nausea or relieving the internal irritation by which the disposition to vomit is caused.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and inocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

The fact is well known to physicians that the basis of all the medical stimulants of the pharmacopoeia is fiery and unpurified alcohol—an article which no medicine can deprive of its pernicious properties. The liquors of commerce are still worse. They are all adulterated. Hence the faculty, while universally admitting the necessity for diffusive tonics, hesitate to employ those in common use, lest the remedy should prove deadlier than the disease. During the last twenty years the quality of these articles has been continually deteriorating, and it is notorious that the fluids which bear the names of the various spirituous liquors are flavored and fired up with corrosive drugs to a degree which renders them dangerous to the healthy and murderous to the sick. Under these circumstances, medical men are glad to avail themselves of a preparation absolutely free from those objections, and combining the three invaluable properties of a stimulant, a corrective, and a gentle laxative. HOSTETTER'S BITTERS are therefore held in high estimation by our most eminent practitioners, and bid fair to supercede all other invigorants, both in public hospitals and in private practice. No family medicine has been so universally, and, it may be truly added, deservedly popular with the intelligent portion of the community as HOSTETTER'S BITTERS.

To Builders and Contractors.

THE Undersigned, after years of toil, and at an expense of thousands of dollars, has succeeded in completing his Railroad to his extensive Quarries on the American River. It is unnecessary to speak of the quality of the stone obtained from the quarry of the undersigned, as it is unsurpassed by any to be found on the Pacific Slope, both as regards appearance and durability.

But the undersigned claims it as a privilege to inform the Builders and Contractors of this city, that hereafter he will be able to obviate the delay in filling orders given him for stone, as his ability to deliver stone is now equal to the demands of the whole State.

The undersigned has now on hand, and offers for sale, 50,000 feet of Curb, at lower prices than stone can be obtained from any other dealer in the State.

The delays and extensions heretofore granted by the Board of Supervisors to street contractors upon their contracts, for want of stone, can now be remidied, as the undersigned can deliver 1,000 feet per day, if necessary.

The undersigned will deliver stone from his new and commodious wharf, at the foot of Third street, in any quantity that may be desired by purchasers, and with his present facilities, he can, and will defy all competition.

All orders for stone left at the office of GRANT'S STONE DEPOT, on the Camanche Lot, foot of Third street, will be promptly and faithfully attended to.
