Mechanics' Pavilion Presents a Scene of Rare Beauty on Occasion of the Concert Given to the Visiting Mystic Shriners

ISLAM Temple gave a grand promenade concert in Mechanics' Pavilion in honor of the members of the Imperial Council and their newly elected officers last night. This affair, like all other events which have occurred since the first caravan of Shriners wended its way into this western oasis, was a thing of rare beauty. As the Imperial Council has concluded its labors for this year during the afternoon the Noble representatives were free to lay aside all thought of business and enjoy the promenade and music to their hearts' content.

When the band struck up the opening selection the immense hall was completely filled with visiting Shriners accompanied by their wives and sweethearts. The interior of the hall with its streamers of red, white and blue draped along the rails of the gallery and with its floral decorations shedding their sweet fragrance over the gay assemblage, presented a scene of splendor that will linger in the memory of all who were present. Members of the local temple were on hand and gave their guests a cordial reception.

TOY CAMEL AT FISCHER'S CREATES MERRIMENT

Shriners Enjoy Performance of "Fiddle Dee Dee" and Laugh at Appropriate Salutes.

When Messrs. Kolb and Dill made their entrance at Fischer's Theater last evening hauling after them a toy camel the audience, which was composed of Shriners, grew enthusiastic. It was fully ten minutes before the fun-makers could go on with their dialogue. Their witticisms about the Nobles created great merriment. However, their reception was not a marker to that tendered Barney Bernard when he burst on the stage and proceeded to walk on his heels. Bernard as Moses Lichinski is garbed in Turkish costume, which is given a finishing touch by the fez he wears. The Hebrew impersonator tried to explain to the audience that he was a "trick" and not a Shiner, but they would not let him proceed until their merriment had ceased. Bernard explained that he walked on his heels to keep his soul from being burned when walking over the hot sands.

MILITARY MANOEUVRES

The Columbia Boys' Club is a complete organization and has its own band, buglers and drum corps. The exhibition was started by Company "winner" of the championship trophy of 1902, under the command of Captain George Morse. The boys marched and counter-marched up and down the long hall, wheeled and turned in a manner that won for them hearty applause. The manoeuvres of Company C were followed by a marching drill by the drum and bugle corps. The army setting-up exercise by the battalion proved the crowning feature of the boys' performance. In this exhibition the boys exercised in all manner of athletic exercises calculated to develop muscles and lungs. Their physical culture exercise was rather a novelty and was greatly enjoyed by the Shriners.

The young soldiers concluded their exhibition with a dress parade in a style which would have done credit to an organization of adults. In conducting the drill Major Sidney S. Peixoto was assisted by Adjutant Aleck More, Bandmaster Emil E. Kahn, Drummer W. H. Hutton, Captain Philip Coryn of Company A, Captain Louis Holm of Company B, and Captain George More of Company C.

Cloud-Capped Mountain Peak the Enjoyable Mecca to Which Hundreds of Nobles Journey--Owing to a Misunderstanding the Excursion to Berkeley Proves to Be a Slight Disappointment

MOUNT TAMALPAIS was the Mecca to which the Mystic Shriners journeyed yesterday. More than 200 Nobles and their families made a pilgrimage to the pleasure resort. Another crowd journeyed up the mountain in the afternoon and remained overnight with a view to seeing sunrise on the mountains.

The visitors were accorded every accommodation by the Mill Valley and Mount Tamalpais Scenic Railway Company. Special cars were reserved and the engines were wastefully decorated in their honor. The Shriners were delighted with their ride up the mountain. They viewed the surrounding scenery and marveled at the engineering feat in building "the crookedest railroad in the world."

No special programme was made for the entertainment of the visitors. The keepers of the tavern were prepared to serve the guests and reaped a harvest from the hungry ones. Many of the Shriners climbed to the topmost peak of the mountain and visited the observation station of the United States Weather Bureau.

"The double bow knot" caused by the track of the railroad paralleling itself five times within a distance of 300 feet proved very interesting, as did the view from the lofty peak. The fog that hung over the mountain in the early hours of the morning was dissipated by the hot sun and by the time the Nobles arrived not a vestige remained to mar their view.

The excursion was voted a success. Many thought the ride and the view surpassed that obtained at Mount Lowe and Pikes Peak.

SHRINERS IN OAKLAND.

Drill at Racetrack To-Day Arouses Interest of the Public.

OAKLAND, June 11.—To-morrow a most unique and interesting feature of the Mystic Shriners' visit to the Pacific Coast will be the competitive drill at the racetrack at Emeryville of six Arab patrols. A prize will be awarded the patrol performing the evolutions with the greatest precision and correctness. Several bands and drum corps will lend stirring melody and time to the maneuvers. There is considerable fraternal rivalry between the various patrols, and this spirit will make the entire affair more interesting to the participants and spectators. Special cars will be run to the racetrack to accommodate the public.
