Dr. Arnold Genthe Gives His Opinion on Beauty of California Women

Help Assert State's Greatest Pride!

AMERICAN beauties, particularly those that come from California, create a sensation in Spain, vis with those on the boulevards of Paris, and make mock of the elegance of carriage and dress which proclaims the beauty in London. The Call is anxious to find the particular California girl who can put the world to shame in the claim for beauty. Beyond the glory of the palm The Sunday Call is going to pay \$150 in gold to the woman whose face is adjudged most beautiful by an impartial jury. To the next \$50 will be given, to the third \$25, and \$10 each to the next twenty-five in rank.
